

DreamScape® Vinyl is better, here's why...

CA-1350

Third party tested

CA 01350 - VOC emissions test per CDPH/EHLB/Standard Method V1.2-2017. It evaluates the **indoor air quality** impacts of building products including wallcoverings.

Product meeting CA 01350 criteria contributes

to achieving credits in green building certifications such as LEED, WELL etc.

Also, Dreamscape products have low VOC (low emissions) rating according to CA 01350, making it suitable for use in Classrooms and offices.

Passes Type II testing

TEST	Test Method
Breaking Strength	ASTM D-751 – Grab Method
Tear Strength	ASTM D-751 – Pendulum Impulse Method
Coating Adhesion	ASTM D-751
Colorfastness to Light	Federal Test Method Standard 191A - Method 5660
Blocking	Federal Test Method Standard 191A – Method 5872
Crocking	Federal Test Method Standard 191A – Method 5651-b
Cold Crack Resistance	Paragraph 7.1.2
Heat Aging	Federal Test Method Standard 191A – Method 5850
Shrinkage	Paragraph 7.1.3
Stain Resistance	ASTM D-1308
Washability	ASTM F793
Scrubability	ASTM F793

DreamScape Vinyl wallcoverings are manufactured without Per- and Polyfluoroalkyl substances (PFAS), asbestos, lead, orthophthalates, PCBs, formaldehyde, hexavalent chromium compounds, and halogenated flame retardants.

These substances are known to have detrimental effects on human health and the environment, and their absence underscores Roysons' commitment to product safety and sustainability.

PFAS FREE

Perfluoroalkyl and Polyfluoroalkyl substances

LEAD
CADMIUM
MERCURY
CHROMIUM
ARSENIC

Meets the highest level of Fire Ratings

Class A fire rating
For Woven + Non-woven backing

See here for complete information on Fire ratings:

Health/Environmental

Benefits: Using ultra low VOC products can help improve indoor air quality by reducing emissions of harmful chemicals. This is particularly beneficial for sensitive individuals, such as those with respiratory issues or allergies.

Health Product Declaration

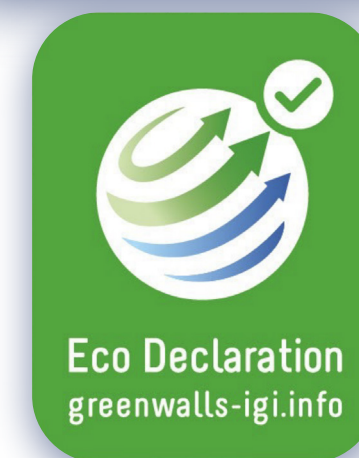

The purpose of this document is to provide transparency about the chemical ingredients in our products and their potential health impacts, enabling end users to make informed decisions.

Environmental Product Declaration

Our Vinyl Wallcoverings holds an Industry average EPD (IGI - Global Wallcovering Association) and is prepared in accordance with ISO 14025 guidelines and is third party verified. Having an EPD can differentiate our product in a competitive market by showcasing its environmental performance thus appealing to the environmentally conscious customer.

Eco Declaration

It measures the product's environmental Performance, it has the GWP (Global Warming Potential) value. GWP is also known as the Carbon footprint. Many building codes and sustainability certifications require adherence to specific GWP limits. Knowing the GWP of products helps designers meet these standards.
